FOREVER IN FRAME / WEDDING FILMS

Thank you for *being here.*

What follows is a careful, honest look at how we work together — the collections, the inclusions, the numbers. Take your time with it.

THE APPROACH

I film weddings the way I like to watch them — patient, unhurried, and a little bit in love with the small things. The laugh before the vows. The hand on the small of a back during speeches. The way the light moves across a room you've loved for an afternoon.

WHAT'S ALWAYS INCLUDED

Every collection includes licensed music through Musicbed, a cinematic colour grade, and a film delivered in a private online gallery you can share with family for years. No watermarks. No upsells. Just your film, returned to you.

Travel is included within the distance noted on each collection. Anywhere further is priced transparently — no surprises, ever.

Six ways to *remember* it.

Three wedding collections, and three companion films — engagements, anniversaries, and elopements — for the moments before and around the big one.
